Phasor

Wireless rechargeable laser mouse

Phasor: the mouse with the technology of the newest generation. The new Notebook mouse from DICOTA operates with a laser sensor that offers astonishing scanning abilities. The surface is scanned 30 times more sensitive than with an LED optical sensor - making it possible to work faster and more precise! The digital RF 27 MHz-technology enables the user to work easy without the necessity of cables. The range of up to 1 meter, the 3 buttons including a scroll function and the rubber coating ensure precise and simple use. Optionally, Phasor can be operated either with rechargeables or a cable. Phasor, the perfect companion on the road: functional, handy and comfortable.

1600dpi. 27 MHz. up to 1m working range. 3 buttons incl. scroll functionality. laser sensor. rubber coating. Plug & Play. charging cable. 2 rechargeable batteries. user's guide
